Did You Know: *What did Yeshua study?*

During the time of Yeshua (Jesus), all followers of Yeshua including Yeshua Himself, the Apostles, Paul, James, etc. each read weekly from the Hebrew Scriptures (the Torah and the TaNaKh, (aka Old Testament)) on a table (which is called the Bema) in the synagogues.

The Hebrew Aleph-Bet (אַלְפָ-בֵּית עַבְרִי)

1.01 First 5 consonants (aka letters) from aleph to hay

Congratulations on getting started learning Biblical Hebrew 101 Boot Camp! The objective is to learn to read – print Hebrew – study in the Hebrew language of the LORD. Our desire is to learn to study God’s Word effectively, which includes studying in the original language.

In this lesson, we will:

- Begin to learn to pronounce Biblical Hebrew with Sephardic pronunciation.
- (Sephardic is the pronunciation that is used in Israel today).
- Begin to print in Hebrew with Block (aka Square) Letters.
- Sound out the first 5 letters of the Aleph-Bet with the first 2 vowels (aka nikkudot).

1.02 Practice the first 5 consonants (aka letters)

1. Read the name of each letter below. (Refer to Sound of Letter column for pronunciation)
2. Do the hand: make a fist with your right hand. Point thumb down and say *aleph*. Raise index finger – say *bet*. Lift middle finger – say *gimmel*. Lift ring finger – say *dalet*. And finally lift pinkie – say *hay*
3. Print each letter. (Copy the Block print below & refer to Aleph-Bet chart for letter formulation.)

Letters (aka consonants) & Vowels (aka nikkudot ניקודות)					
Block Print	Numeric Value	Name of Letter	Sound of Letter	Block Print (NOTE: There are slight stylistic variations in the how each person writes a letter)	Write Each Hebrew Letter 5 Times
א	1	aleph	<i>silent</i>	א	
ב	2	bet vet	b in ball v in vice	ב	
ג	3	gimmel	g in get	ג	
ד	4	dalet	d in dog	ד	
ה	5	hay	h in hi	ה	
Vowels (Note: the aleph is used below for illustration purposes. These vowels can be used with most consonants)		Name of Vowel NOTE: Vowels cannot stand alone & must be preceded by a consonant	Sound of Vowel There are two “ah” vowels in Hebrew. This is similar to English words that may be pronounced the same but spelled differently: “sew” & “so”. (We will discuss the grammatical reason in a future lesson.)	Block	Write Each Hebrew Letter
א	<i>kamats:</i> אָמָתָה		“ah” in spa	א	
א	<i>patach:</i> אָמָתָה		“ah” in spa	א

1.04 Practice reading actual Hebrew words

1. Our objective in Hebrew 101 is to become familiar with the letters and their sounds not to memorize words.
2. Hebrew is read right to left and top to bottom. Begin by reading the right-most letter. Then, add the vowel that is generally written below the consonant.
3. For example: with the word **אַהָה**. Begin by reading the **א**; then add the **ה**. We now have **אַה** (ah-hah). Finally, we add the **ה**. Since there is no vowel below this letter, it only has the sound of the consonant. When we put the word altogether, we have: **אַהָה** (ah-hahy).

Always remember to read: right to left and top to bottom.

Read & Write words below			
Hebrew	Translation	Transliteration	Practice Writing Each Hebrew Word
<i>NOTE: generally vowels are written below the consonant</i>		<i>The accented syllable is bold and highlighted</i> (please, try to read before looking at transliteration)	
1) 	in her (note: in Lesson 6, we will study why some Hebrew letters have a dot (dagesh) & why others do not.)	bah	
2) 	<i>Av</i> is the 5 th month of the Biblical year, counting from Nisan. (*note: there are 2 forms for this consonant. When there is no “dot,” it is a <i>ret</i> א; when there is a “dot,” it is a <i>bet</i> א)	ahv: (reminder – “a” in Hebrew sounds <u>like</u> “a” as in spa – <u>not</u> like “a” as in apple.)	
3) 	father	ahv	
4) 	he loved	ah- hahv	
5) 	Gad (as in the tribe of Gad) *Note: this dot (dagesh) will be explained in a later lesson)	gahd (like “a” in spa)	
6) 	he was lost or perished	ah- vahd
